EXAMINER'S AMENDMENT

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7 April 2008 has been entered.

Election/Restrictions

2. Claims 1, 2, 4-16, and 18-25 are allowable. The restriction requirement between distinct species, as set forth in the Office action mailed on 29 September 2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 9 and 19-24, directed to the species shown in figure 2, are no longer withdrawn from consideration because the claims require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present

application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Keith Haupt on 21 April 2008.

The application has been amended as follows:

Claim 1. (Currently Amended) A method of binding a sheet of paper which includes the steps of: feeding an end of a sheet of paper to be bound into a partially folded elongated binding strip having two portions angularly disposed to each other from a fold line defining a longitudinal axis, wherein the direction of feeding of the sheet of paper is parallel to the longitudinal axis of the binding strip; mating the end of the sheet of paper and the binding strip, with the end of the sheet of paper located in the region between the two portions; crimping the binding strip with the end of the sheet of paper therein; and folding the binding strip with the end of the sheet of paper therein.

Claim 26. (Canceled)

Allowable Subject Matter

4. Claims 1, 2, 4-16, and 18-25 are allowed. Claims 1 and 12 are the independent claims.

5. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Patent Publication 2002/0164230 A1 to Hoffman, which was applied to the claims in the office action mailed 7 January 2008. Suffice it to say, the patent to Hoffman does not disclose "wherein the direction of feeding of the sheet of paper is parallel to the longitudinal axis of the binding strip" as claimed in independent claim 1 or "wherein the feed means directs the end of the sheet of paper into a region between the two portions angularly disposed to each other of the binding strip in a direction parallel to said longitudinal axis prior to securing the binding strip to the end of the sheet of paper with the reciprocating securing means" as claimed in independent claim 12, and as such does not anticipate the instant invention as disclosed in independent claims 1 and 12.

Furthermore, there is no combinable teaching in the prior art of record that would reasonably motivate one having ordinary skill in the art to so modify the teachings of Hoffman without the use of hindsight reasoning, and thus, for at least the foregoing reasoning, the prior art of record does not render obvious the present invention as set forth in independent claims 1 and 12.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eric A. Gates whose telephone number is (571)272-5498. The examiner can normally be reached on Mon-Thurs 8:45 - 6:15.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bryant can be reached on (571) 272-4526. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
